The Journal of Continuing Education
in the Health Professions
Volume 14, 1994

Subject Index

Accreditation, 22
Acquired immunodeficiency
  syndrome. *See* HIV/AIDS
Aging, 187
  See also Geriatrics/gerontology
AIDS. *See* HIV/AIDS

Bioethics, 56–59
Biomedical information/technology,
  10
Book review, 190–191

Change, 239–250
Clinically relevant data, 13–14
Clinical practice guidelines (CPGs),
  46–54
CME. *See* Continuing medical
  education
Collaborative planning/learning,
  13–14, 15–17
College of Family Physicians of
  Canada, 75–81
Communications technology, 10–11
Computers
  assisted learning, 91–97
  electronic bulletin board, 166–172
  information network, 115–117
  Visiting Librarian Program,
    232–238
Conflict of interest, 33–45
Continuing medical education
  accreditation and credit incentives, 22
  change in culture of, 19
  clinical practice guidelines, 46–54
  education of providers, 20–21
  enhanced status of profession,
    22–23
  forces creating change in, 7
  funding, 19–20, 32–42
  geriatric, 101–108, 239–250
  and health care policy making, 21–22
  leadership and management, 23
  needs assessment, 115–124,
    132–140, 224–231
  newer approaches, 75–81
  new paradigm for, 4–26, 61–64
  research and development, 21
  traditional, 5–7, 75–81
  videoconferencing, 83–87
  See also Learning; Nursing
    education; Physicians
Continuous quality improvement
  (CQI), 8–9, 14–15
CPGs. *See* Clinical practice guidelines
CQI. *See* Continuous quality
  improvement
Credit incentives, 22

Doctors. *See* Physicians

Education. *See* Continuing medical
  education
Effective Patient Teaching (EPT)
  program, 155–164
Electronic bulletin board, 166–172

Funding, 19–20
  commercial, 32–42

GAS. *See* Goal attainment scaling
Geriatrics/gerontology, 101–108,
  239–250
Gifts, 33–45
Goal attainment scaling (GAS),
  141–153
Grateful Med software, 232–238

Health care institutions, quality
  management in, 8–10
Health care outcomes, 132–140
Health care system
  CME as part of, 18–19
